

“Jayville” Manhole Braces

Used in conjunction with trench sheets, provide excavations from 2.0m² to 5.0m² with secure and safe support. Installation of braces from ground level ensures that there is no need for anyone to enter an unsupported excavation.

Each set of Manhole Braces are supplied complete with hanging chains and double-acting hydraulic pumps. Rectangular excavations can be achieved by combining 2 sizes of brace Legs

MANHOLE BRACE	CLOSED (m ²)	OPEN (m ²)	FRAME WEIGHT (kg)
Type 'A'	2.0 (6'6")	3.0 (9'10")	1080
Type 'B'	3.0 (9'10")	4.0 (13'1")	1240
Type 'C'	4.0 (13'1")	5.0 (16'4")	1400

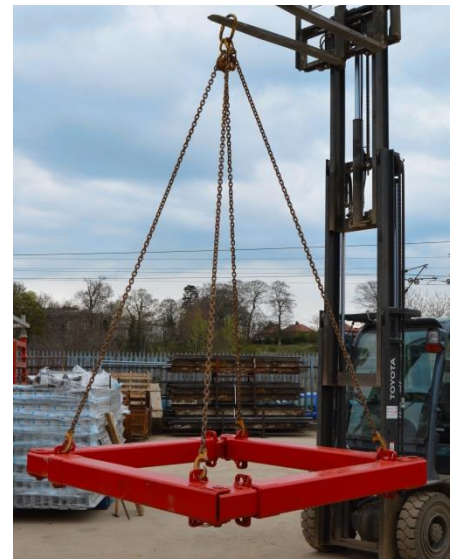

Manhole Shutters

Manhole shutters combine durability with lightweight handling. Available in 1800mm and 900mm heights, to create up to a 2700mm diameter.

Plashore Polypropylene manhole shutters are lightweight and designed to eliminate cleaning costs from shot-blasting and labour.

Nominal Internal Diameter of Manhole		No. of Panels to give 150mm concrete cover		
		A	B	C
27"	675mm	2	1	
36"	900mm	2	2	
42"	1050mm	3		1
48"	1200mm	3	1	
54"	1350mm	3	2	
60"	1500mm	4		1
72"	1800mm	4	2	
81"	2025mm	5	1	
84"	2100mm	5	1	1
96"	2400mm	6		
108"	2700mm	6	2	

Nominal Internal dia.	No. of Shutters required to form Manhole	
	Shutter A	Shutter B
675mm	2	1
900mm	1	3
1050mm	3	1
1200mm	1	4
1350mm	3	2
1500mm	5	-
1800mm	5	1
2100mm	5	2
2400mm	5	3
2700mm	5	4

Road Crossing Plates & Trench Guards

Road Crossing Plates and Trench Guards temporarily cover excavations in footpaths, roadways and groundworks. Road Crossing Plates are also available with an anti-skid coating.

Dimensions: 2400mm×1200mm×20mm

Weight: 550kg

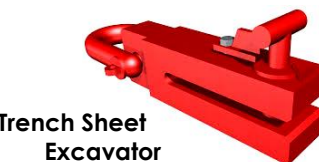

Trench Sheetting

We stock standard duty 3.5mm thick trench sheets, for lining trenches and other temporary excavations. Standard trench sheets are 330mm in width and available in lengths of: 2m, 2.5m, 3m, 3.5m, 4m, 4.5m, 5m
